Mahmoud Samy Arabeen

Frontend Engineer

Egypt | (+20) 1121029770 | mahmoudarabeen@gmail.com | Portfolio | LinkedIn | GitHub

Languages: Arabic (Native), English (Very Good)

SUMMARY

Detail-oriented Frontend Engineer experienced in building scalable, high-performance web applications using React.js, Next.js, and TypeScript. Skilled in enterprise ERP systems, complex form validations (React Hook Form/Zod), SSE real-time notifications, i18n localization, and secure Keycloak authentication.

WORK EXPERIENCE

Frontend Engineer | Mega Dev

Feb 2026 – Sep 2026 | *Hybrid (On-site / Remote)* | *Egypt*

- Developed and maintained high-performance client applications, internal systems, and admin dashboards using React.js, Next.js, and TypeScript.
- Integrated **Keycloak authentication** across enterprise systems, implementing role-based access control (RBAC) for up to 7 user roles.
- Engineered complex, dynamic form architectures using **React Hook Form** with **Zod** schema validation.
- Built real-time live notification systems using **Server-Sent Events (SSE)**.
- Implemented multi-language (i18n) support with **i18next** and **next-intl** for seamless RTL/LTR layout switching.
- Streamlined API communication and state management using **Axios** interceptors, **Zustand**, and **TanStack Query**.

Key Company Projects at Mega Dev:

- **IDIF – ERP System (Warehouse & Factory Management)** | Live Demo

Contributed to a production-level ERP system for a Saudi manufacturing factory. Engineered high-capacity data tables, multi-role dynamic interfaces, and complex form workflows handling massive data input.

- **Mega Dev Official Website** | mega-dev.io

Built the company's official website from scratch using Next.js (App Router), TypeScript, Tailwind CSS, and Framer Motion. Integrated full English/Arabic internationalization via `next-intl`.

- **Orabi – Admin Dashboard** | Live Demo

Developed an administrative dashboard from scratch for a university transportation platform. Built features for managing bus trips, student subscriptions, and integrated real-time SSE notifications.

SKILLS

- **Frontend & Frameworks:** React.js, Next.js (App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS.
- **State & Data Fetching:** Zustand, Redux Toolkit, RTK Query, @tanstack/react-query, Axios Interceptors.
- **Forms & Validation:** React Hook Form, Zod.
- **UI Libraries & Motion:** Shadcn UI, Ant Design (AntD), Framer Motion.
- **Authentication & Real-time:** Keycloak Integration, Server-Sent Events (SSE).
- **Localization & Tools:** i18next, next-intl (RTL/LTR Support), Git, GitHub, RESTful APIs.

PERSONAL PROJECTS

1. SIEDRA SHOP – Multi-language E-commerce Application | Live Demo

Tech Stack: React.js, TypeScript, Tailwind CSS, Redux Toolkit, RTK Query, RESTful APIs

- Built a responsive multi-language (Arabic/German) SPA with dynamic cart management, user auth, product filtering, and seamless RTL/LTR layout toggling.

2. Istami Tafuz – Quran & Islamic Content Platform | Live Demo

Tech Stack: React.js, TypeScript, Tailwind CSS, Redux Toolkit, RTK Query, RESTful APIs

- Developed an Islamic media platform allowing users to stream recitations, Tafsir, live TV channels, and Islamic radio with custom audio controls.

3. SMART CHEF – Food Recipes Web Application | Live Demo

Tech Stack: Next.js (App Router), TypeScript, Tailwind CSS, Zustand, @tanstack/react-query, Framer Motion

- Built a recipe discovery app with dynamic fridge ingredient management, smart suggestions, Framer Motion animations, and React Query data fetching.

EDUCATION

Bachelor's degree in computer engineering | Mansoura University, Faculty of Engineering

Graduated: Jul 2024 | ***Grade:*** *Excellent with honors (87.06%)*

Graduation Project: Classifying Alzheimer's disease using AI (Grade: Excellent)
